

# Poly Base 300 & Poly Pro Presoak

## Why go Polymer?

- 1) 2-Step magic**  
Polymer technology cleans without strong alkaline ingredients that require neutralization
- 2) Gentle to car wash workspace**  
Gentler on machines, bays, and people
- 3) Shipping advantage**  
Not DOT corrosive, lowers DOT shipping limits & can be shipped internationally with low pH corrosives

**Detergent  
Base- add  
surfactant  
of choice**

**Formulated  
Presoak  
concentrate**

**Polymer  
encapsulates  
& emulsifies  
soils**

**Dirt  
particle**

**Vehicle  
surface**

## The science behind the polymer:

McClean is leveraging the power of modern polymers by replacing the workhorse cleaning functionality formerly done by high pH and corrosive ingredients. Join the modern age of polymers = clean.
